

Novosoft Handy Backup

Backup Solution for Everyone

Complete backup solution for home users and small to medium-sized businesses. Reliable data protection for Windows-based computers and enterprise servers.

Handy Backup is a leading-edge backup solution designed for computers working under Microsoft Windows 7/Vista/XP/2000 and 2008/2003 Server operating systems. The program carries multiple logos and certifications validating its end-to-end compatibility with Microsoft technologies, IBM DB2, IBM Lotus, Oracle RDBMS and other software.

Easy to Install and Use

- One-minute setup and configuration
- Intuitive interface with user-friendly icons
- Complete automation of all tasks
- Detailed help and unlimited free support!

Data Protection is as Easy as 1-2-3!

- Back up your files, folders and applications
- Never lose your e-mails and contacts!
- Complete hard disk image backup
- Protect databases, MS Exchange and more

- More than 40,000 users worldwide
- More than 1,000 enterprise customers
- 23 interface languages

Handy Backup is available in three editions called Handy Backup Standard, Handy Backup Professional and Handy Backup Full. Standard edition contains a basic set of features and will be an ideal choice for home and small office PC users. Professional and Full editions include more advanced and server-specific features designed for professional users and system administrators.

Handy Backup features a unique extensible architecture, where any feature can be added as an additional plug-in. This enables our users to select any combination of features and pay only for the capabilities they need, e.g. purchase Handy Backup Standard + MS SQL Server Backup plug-in.

Handy Backup Standard - Backup for Home Computers

Handy Backup Partnership Opportunity

Handy Backup was designed with a flexible and extensible architecture which allows customizing the program for needs of our partners. We are open to cooperation with all-sized hosting providers and entrepreneurs. If your market requires a backup solution, we can offer localization or customization of Handy Backup for a very reasonable fee. Whether you are seeking a blanket license to fully publish all Handy Backup titles in a local language, or you are looking to take on a competitor under your own brand, our joint work will allow you to accelerate the process of market entry and increase your returns.

For detailed information on customization and possible partnership opportunities, please contact us at sales@novosoft.net

Handy Backup Pricing Policy

Handy Backup Standard, Handy Backup Professional and Handy Backup Full, as well as all separate components that make up the editions (MS Exchange, Database, MS SQL, DB2, Lotus, Oracle and Image Backup plug-ins) come with a volume-based pricing which implies a very simple principle: the more you order, the less you pay.

For details on ordering please refer to the product website: www.handybackup.net/order.shtml

Special discounts are offered to government, academic and non-profit entities. Standard discount rate for these types of customers is 30% of a license fee.
